

## TECHNOLOGIES USED

- ❖ **Programming Languages:** Java, C, C++
- ❖ **Web Development:** HTML, CSS, JavaScript, React JS, Node JS
- ❖ **UI/UX Designing:** Figma
- ❖ **Styling Frameworks:** Bootstrap, Tailwind CSS
- ❖ **Databases:** MySQL, MongoDB

## EDUCATION

- ❖ **Pursuing Computer Engineering** | Sandip Institute of Technology and Research Center, Nashik  
SGPA: 8.16 | (July'-2024)

## EXPERIENCE

- ❖ **Web Development Intern**, Cloud Counselage Pvt. Ltd.
  - Gained hands-on industry training and worked on live projects.
  - Learned project documentation processes, highlighting my strengths and improving areas of weakness.

## ACADEMIC PROJECTS

- ❖ **Blinkit Clone (MERN Stack)**  
Built a feature-rich e-commerce platform inspired by **Blinkit** using **MongoDB, Express.js, React.js, and Node.js**.
  - Implemented product search, real-time cart updates, and a smooth checkout process.
  - Focused on a user-friendly interface and optimized backend for seamless functionality.
  - Applied responsive design principles to ensure usability on all devices.
- ❖ **College Navigator Website**  
Designed and developed a website to assist students in finding colleges based on their **CET, NEET, and JEE scores**, along with cutoff data, using **HTML, CSS, JavaScript, and Bootstrap**.
  - Included a search feature for precise college recommendations.
  - Integrated a responsive design for desktop and mobile viewing.
- ❖ **Personal AI Assistant**  
Built a responsive **AI** assistant with a simple and intuitive **UI** using **HTML, CSS, and JavaScript**.
  - Enabled functionalities like text-to-speech and basic Q&A.
  - Designed a user-friendly interface for smooth interaction.
  - Ensured compatibility across multiple browsers.

## POSITION OF RESPONSIBILITY

- ❖ **Cultural Event Coordinator**, Sandipostav
  - Learned teamwork, event organization, and leadership qualities.
- ❖ **Cultural Coordinator**, CESA 2024
  - Successfully managed events, further developing leadership and organizational skills.

## ADDITIONAL HIGHLIGHTS

- Quick learner with a strong foundation in web development and problem-solving.
- Proficient in creating scalable, interactive web solutions with frameworks like **Bootstrap, Tailwind CSS**.
